What is Infogram?

infogram

- A way to make infographics, dashboards and Graphs.
- You can focus solely on the visualization side of it, but there are many options to add different graphics or animations
- The **free option** limits you to 10 projects, max 5 pages each
 - You also have no option to download the project; it becomes public, and you can get a shareable link to view it
 - You can take a nice screenshot of your project from the download page, though

Plans and features?

Basic

Get started for free to see how easy it is to design beautiful data visualizations with Infogram.

Free

Forever

Start for Free

- ✓ 37+ interactive charts types

Dashboard-New Project Options

infogram

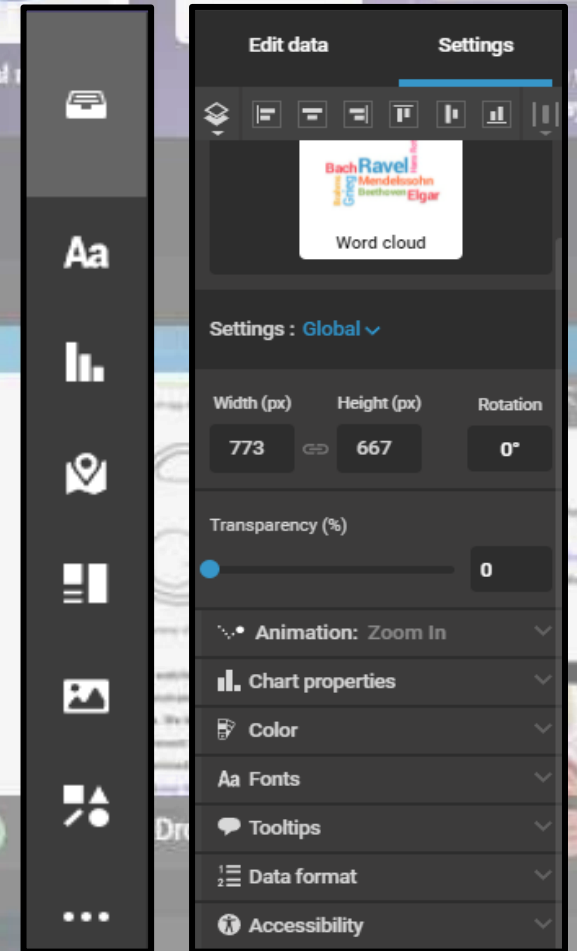

- Different layout selections to choose from to fit how you want to display your infographic
 - Template libraries for you to edit and make your own or start from scratch!

Project Toolbar and Element Settings

infogram

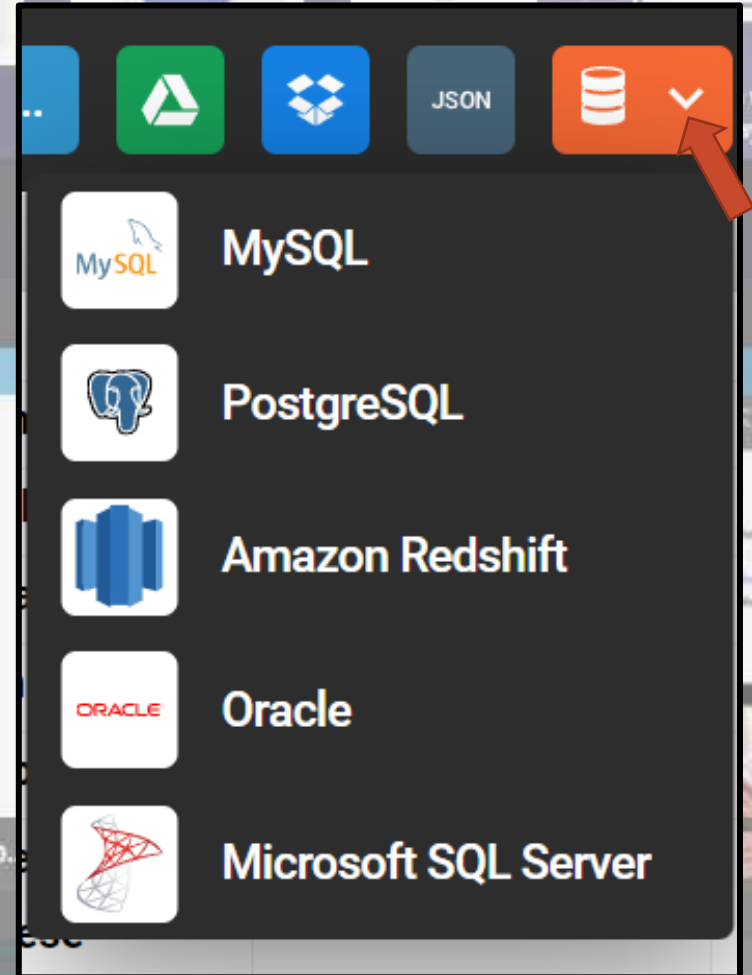

- There are so many ways to personalize your infographic!
 - You can add different charts, maps, text, elements like diagrams or lists, graphics like images or even gifs, and shapes!
- If you can click on it, you most likely can customize its settings.
 - Animation, Chart Properties, Color, Fonts, Data format

Importing Data

infogram

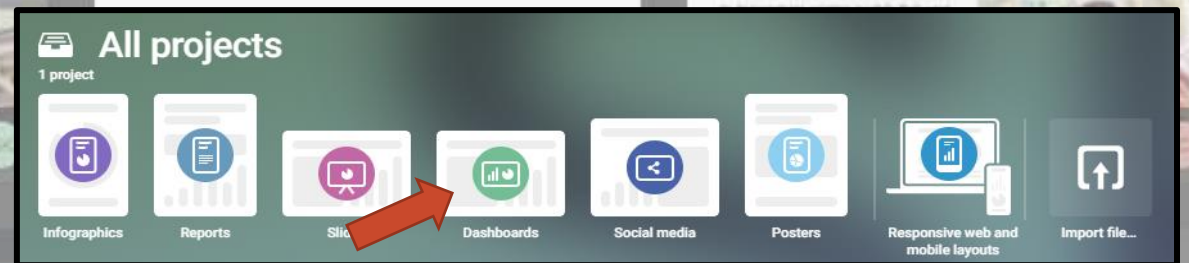

- There are different options for importing data
 - Uploading a local file, Google Drive, Dropbox, JSON feed URL, or from a database

Dashboards

infogram

- Dashboards are a great way to visualize and track metrics related to department or project.
- With Infogram's dashboard maker you can connect your data and make better decisions.

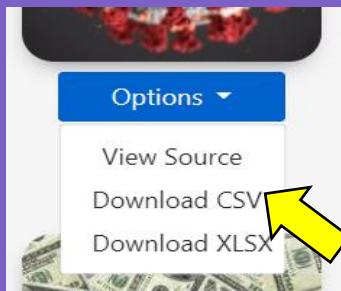

Demo

infogram

1. Go to <https://simplechartsri.com/>.
2. Scroll down to the 'Covid Deaths' sample and click on 'Options'.

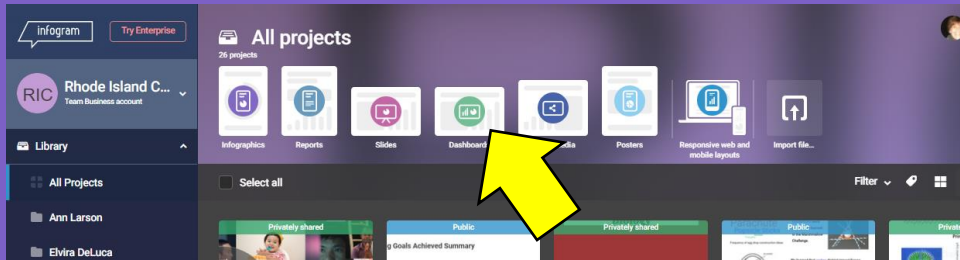

3. Now click on 'Download CSV'.

Demo

infogram

4. Go to <https://infogram.com/>.
5. Click on 'Dashboards' in the 'All projects' dashboard.

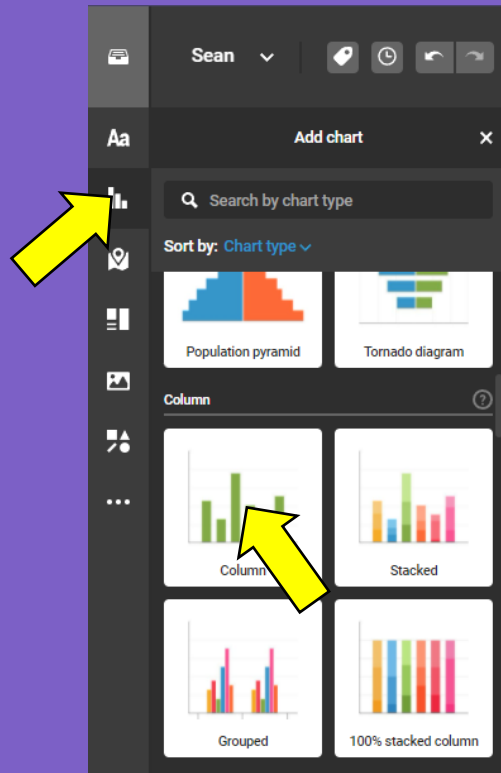

6. Select Blank Template.

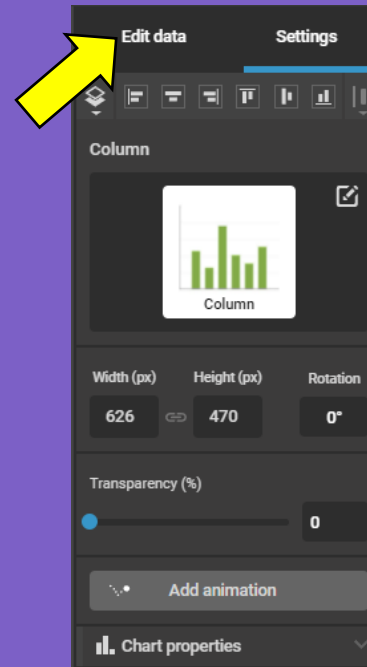

Demo

infogram

7. Now go to the Add chart options on the left bar and select 'Column'.

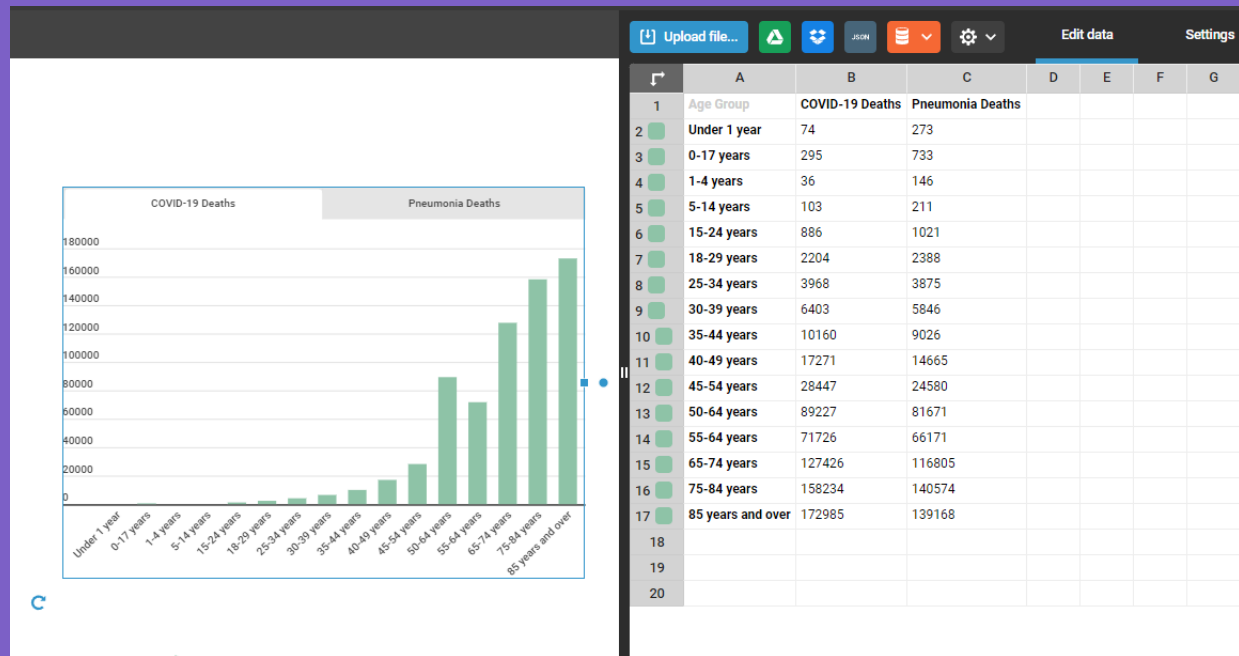

8. Click on the column chart and on the right bar, click 'Edit data'.

Demo

infogram

10. Now your data in the table and the column chart should look like this.

Demo

infogram

11. Now we are going to change the settings of the chart. So go back to the settings by clicking on 'Settings'.

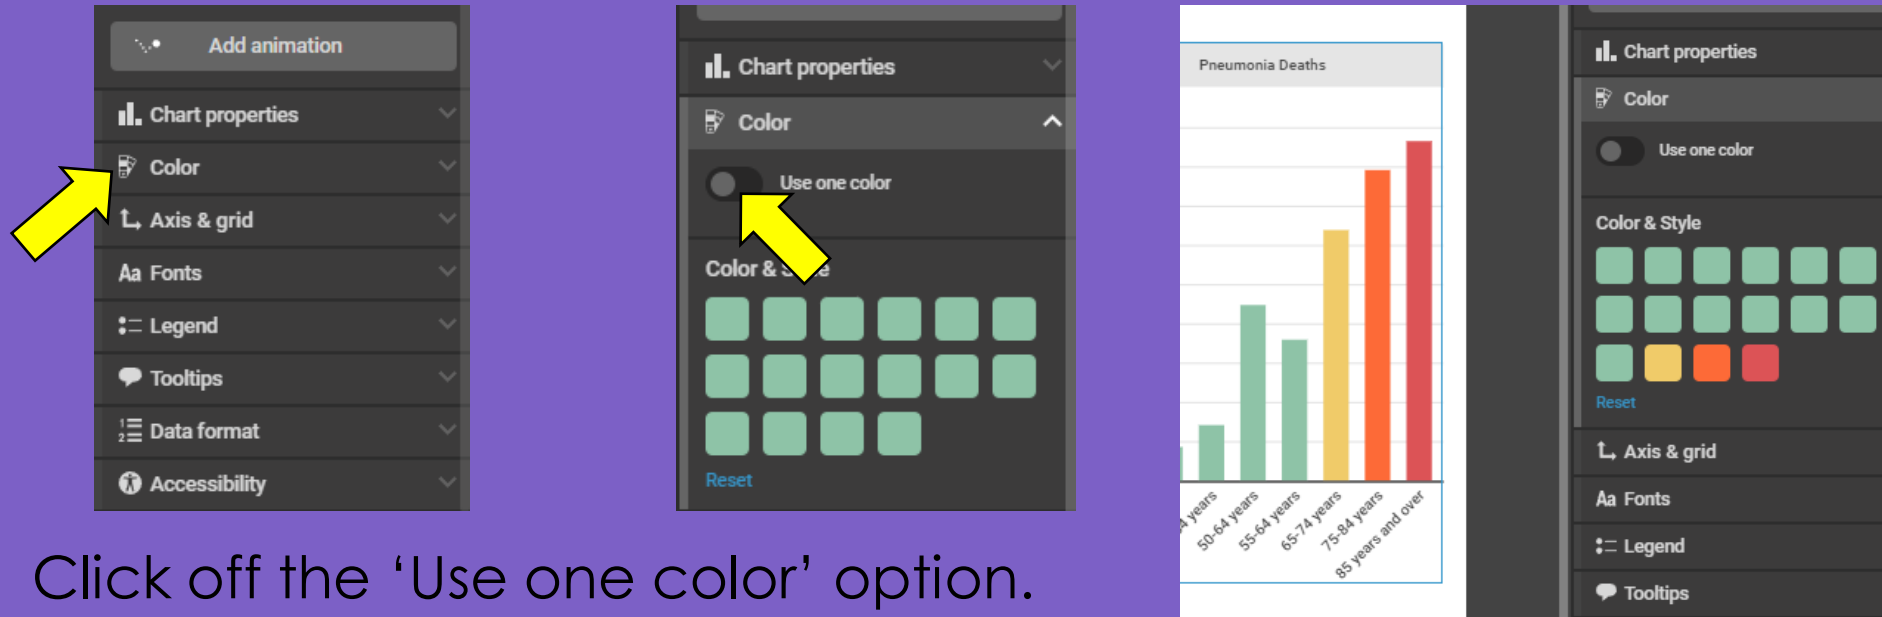

The screenshot shows a data table interface with a toolbar at the top. The toolbar includes buttons for 'Upload file...', a trash icon, a refresh icon, a 'JSON' label, a dropdown menu, a settings gear icon, and buttons for 'Edit data' and 'Settings'. A yellow arrow points to the 'Settings' button. Below the toolbar is a table with columns A, B, and C. Column A is 'Age Group', column B is 'COVID-19 Deaths', and column C is 'Pneumonia Deaths'. The table contains 17 rows of data.

	A	B	C	D	E	G
1	Age Group	COVID-19 Deaths	Pneumonia Deaths			
2	Under 1 year	74	273			
3	0-17 years	295	733			
4	1-4 years	36	146			
5	5-14 years	103	211			
6	15-24 years	886	1021			
7	18-29 years	2204	2388			
8	25-34 years	3968	3875			
9	30-39 years	6403	5846			
10	35-44 years	10160	9026			
11	40-49 years	17271	14665			
12	45-54 years	28447	24580			
13	50-64 years	89227	81671			
14	55-64 years	71726	66171			
15	65-74 years	127426	116805			
16	75-84 years	158234	140574			
17	85 years and over	172985	139168			
18						
19						
20						

Demo

infogram

12. Once you are there, scroll down and click on the 'Color' tab.

13. Click off the 'Use one color' option.

14. Each block represents a column of data so click on a couple and change the colors. Each one that you change, will instantly change the bars on the chart.

Demo

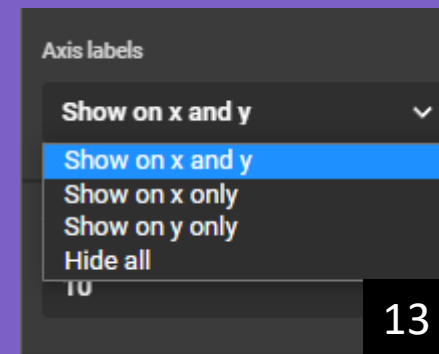

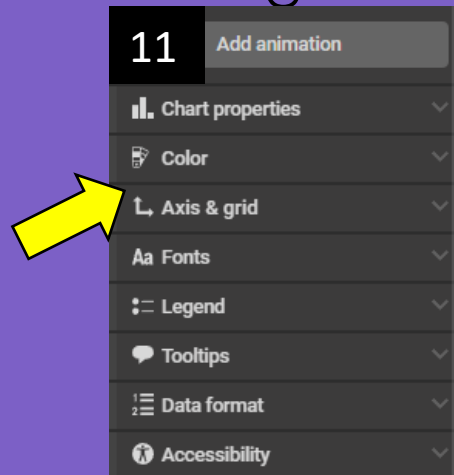

infogram

15. Now keep scrolling down on the right bar and click on the 'Axis & grid' tab.

16. Type in your own titles for the X-axis and Y-axis.

17. Change which labels show by selecting the other options.

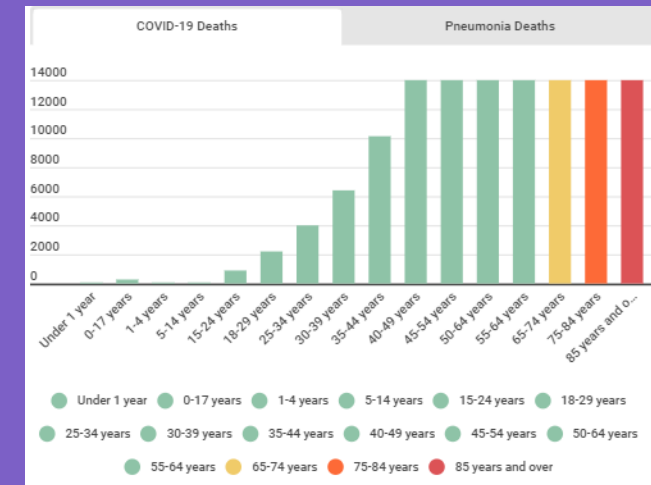

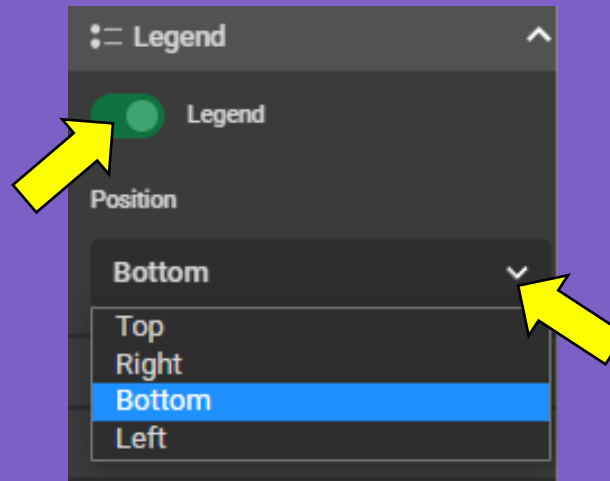

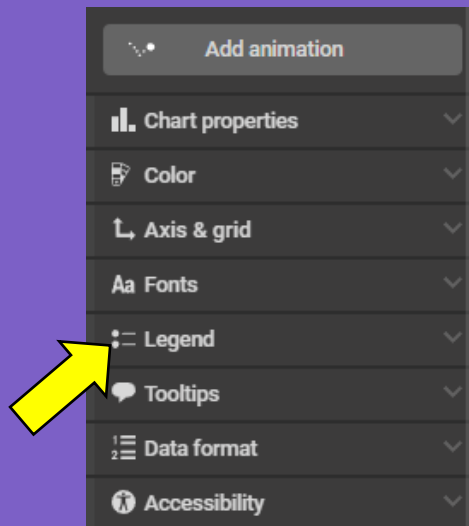

18. Change the Min and Max values for the Y-axis by typing values in.

Demo

infogram

19. Scroll down more and find the 'Legend' tab.

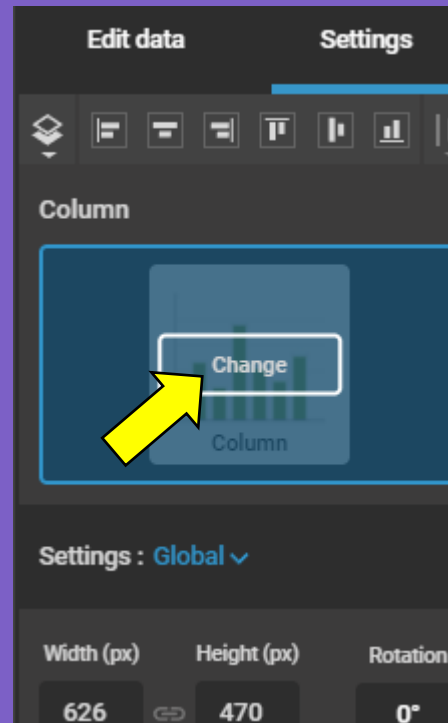

20. Turn the 'Legend' option on. You can also change the position of the legend on the chart.

Demo

infogram

21. Lastly, we are going to change the chart type so scroll to the top of the right settings bar and click change.

Demo

infogram

22. Once you do so, you will see the different chart types again so scroll down and choose 'Pictorial' or any other chart you'd like to explore.
